

## Chasing Blues - Kramit

Sunny day, just wanna play guitar in my back yard

Chase those blues away...

Getting high on life, getting by just being nice

Chase those blues away...

Fall down, get up, you run sometimes you trip

Chase those blues away...

Chase those blues away... Chase those blues away...

Cloudy day, that's OK won't always be this way

Chase those blues away...

Stand up or lie down, you smile sometimes you frown

Chase those blues away...

You laugh, you cry, you crawl sometimes you fly

Chase those blues away...

Chase those blues away... Chase those blues away...

Our bags are packed, let's hit the road. Where we go, who knows?

Take some time to breathe the air, take some time like you just don't care

Chase those blues away... Chase those blues away...

Grey day some may say... I'm happy any way...

## Money God - Kramit

Am I too much a dreamer for you?  
Not black or white but all beautiful hues (that's life)  
You've got to find a way, to change what is not right  
To take back the power, stand strong in our peaceful fight

Money god!

More money more greed, more people to feed  
Nations lie, children die, living low as we buy, buy, buy  
Money, money is it all about the money?

Is my head in the clouds to you?  
Cause I'm bold enough to think love can pull us through (this life)  
If you want change, Believe and make a stand,  
Don't leave it to the man, when the powers in your hands

More money more greed, more people to feed  
Nations lie, children die, living low as we buy, buy, buy  
Money, money is it all about the money?

You have a voice you have a choice,  
You cannot run from what's been done  
You cannot hide from what's not right... ..Wake up wake up

More money more greed, more people to feed  
Nations lie, children die, living low as we buy, buy, buy  
Money, money is it all about the money?

I want to bathe in the river with you  
If we're brave enough to change the things we do...

*ccc* **Here's To You - Kramit** *ccc*

Here's to you my friends, we've gone away  
And we can't come out, we can't come out to play ...well not today...  
And here's to you our mates, you know we think you're great  
In your own, crazy, hazy, kind of ways

*ccc*  
I'm just cruising my way through life, just figuring out...  
Who I wanna be, what I wanna do, who am I?  
I'm just cruising my way through this big bad life  
Who I wanna be, what I wanna do, who am I?

*ccc*  
Here's to lives gone wrong  
If it doesn't make you bitter, it can only make you strong  
And here's to all our loves  
The beautiful people, nature and just love, love, love...

*ccc*  
I'm just cruising my way through life, just figuring out  
Who I wanna be, what I wanna do, who am I?  
I'm just cruising my way this big bad life  
Who I wanna be, what I wanna do, who am I?

*cccccc*  
Love the highs, I just hate those lows  
It's a tidal wave, and here we go again  
Love the ride cause there's no turning back  
Keep your eyes on the road and keep your feet on track

*ccc*  
I'm just cruising my way through life, just figuring out  
Who I wanna be, what I wanna do, who am I?  
I'm just cruising my way through this big bad life  
Who I wanna be, what I wanna do, who am I?

*ccc*  
Here's to you my friends, I'm just cruising my way...

## Adam's Song - Kramit

Hey there beautiful young man, so sorry 'bout the change of plans  
I'm so sad you went away, I so wish that you could stay ...here

And then your baby smiles at me  
That apple didn't fall too far from your tree  
Oh sweet times left behind, in our hearts and in our minds  
Those sweet, sweet times left behind in our hearts and in our minds

Hey there funny, funny guy. How quickly does the time fly?  
Our world it changed that day, I so wish that you could stay,  
I so wish that you could stay, I so wish that you could stay, here

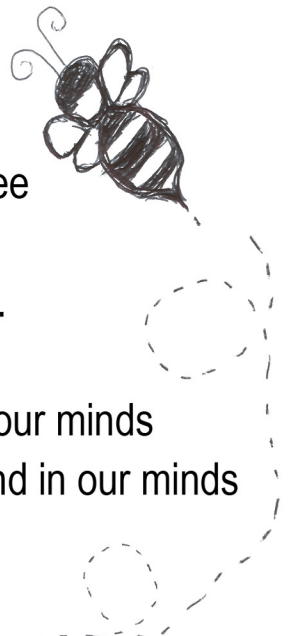

And then your baby smiles at me...

Hey there pretty princesses, so sorry 'bout this terrible mess  
Broken hearts and broken dreams, too young to feel such grief  
How life can be so mean

And then your baby smiles at me  
That apple didn't fall too far from your tree  
And then your baby smiles at me  
I see the love you gave in your family...

Oh sweet times left behind in our hearts and in our minds  
Those sweet, sweet times left behind in our hearts and in our minds  
In our hearts and in our minds

# Electric Chocolate - Kramit

You Burn Me

As I sit here on my high horse, just waiting to fall  
You take me by my hand you take me boots and all, you say...

Come on baby lets have some fun  
You be my lady, I'll be your one

Fire, his lips so sweet,  
His touch it burns me from head to feet  
How can I resist...  
...that beautiful smile that tender kiss

You Burn Me

Looks like chocolate, tastes like it too  
How can I not be with you?  
She likes my moves, she's digs my grooves  
She loves to play my guitar yeah

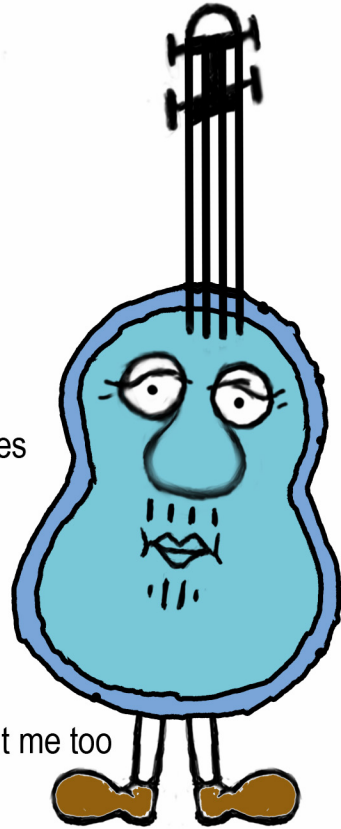

Fire, and burning desire  
You got me all so come take me higher  
You know I'll be good to you  
Treat you like a lady, like I should do, if you want me too

You Burn Me

Fire, and burning desire  
You got me all so come take me higher

Now is the time and this is the place  
I wanna run with you, I wanna fly to space

Fire, and burning desire  
You got me all so come take me higher...

## Hanging out - Kramit

Hanging with my man in our little caravan of love, yeah  
Take a road trip, take a skinny dip in the ocean  
We've been hanging for a while now...

He's my number one and we always have such crazy fun  
We've been hanging for a while now...

Kicking back with my baby, she's my little lady, yeah  
Have a little jam in our caravan of love, yeah, yeah, yeah  
We've been hanging for a while now...

She's so sweet and fine, don't you know that girl is mine  
We've been hanging for a while now...

She's so sweet and fine, don't you know that girl is mine  
He's my number one and we always have such crazy fun  
We've been hanging for a while now

Hold my hand, catch me if you can  
Stay with me, play with me  
Catch me if you can, will you touch my hand  
Play with me, stay with me

She's so sweet and fine, don't you know that girl is mine  
He's my number one and we always have such crazy fun  
We've been hanging for a while now - Such crazy, crazy fun!

## Should I - Kramit

Should I walk away should I stay, will I be okay?  
Can I live my life without you, far away?

I will love you till the end of time  
Breaking this heart of mine, in two  
Any pain that has come from me,  
I am truly sorry, I am human just like you

Should I walk away should I stay, will I be okay?  
Can I live my life without you, far away?

I have followed, I have swallowed my pride  
Killing me deep inside, being without you  
Thought you'd always be my baby  
Hoped that you had come to save me, I am human just like you

Should I walk away should I stay, will I be okay?  
Can I live my life without you, far away?

Cause no one loves you (like I do)  
Adores and hugs you (like I do)  
I can't imagine, living without you

Come with me baby (my darling)  
We will be okay yeah?  
I am human, just like you

Should I walk away should I stay, will I be okay?  
Can I live my life without you, far away?

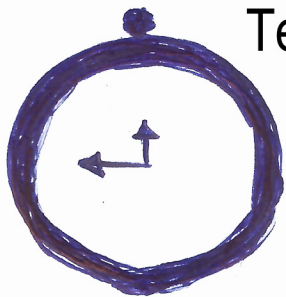

Should I walk away should I stay, will I be okay?  
Can I live my life without you?  
Can I live my life without you?

## Never Far – Kramit

The wind has blown, it's time for moving on  
It breaks my heart we'll be apart  
Silent tears and silly fears  
It breaks my heart we'll be apart

A part of me, you'll always be  
I'm never far from where you are...  
You'll always be... you're my baby  
I'm never far from where you are...

The tide has turned, there's lessons to be learned  
Time to grow and letting go  
Ten thousand tears, for every year  
Time to grow, time to go

A part of me, you'll always be  
I'm never far from where you are...  
You'll always be my baby...  
I'm never far from where you are

## Empowerment - Kramit

You know I've been sad, Why did you treat me so bad?

I put my faith in you

Now don't get me wrong, I thought that we belonged,

You don't love me like I love you

I'm a lover not a fighter you're a two bit cheating liar

I won't take this, I won't take this anymore, no

I won't take this, I won't take this anymore

Felt so real, so what in the hell is the deal?!

Love doesn't always, come true

What can I do, always sitting here waiting for you

You don't love me like I love you

I'm a lover not a fighter you're a two bit cheating liar

I won't take this, I won't take this anymore, no

I won't take this, I won't take this anymore

No no no no!

I gave you my heart, now its tearing me apart

And I won't take this anymore, no,

I won't take this, I won't take this anymore

You're a faker! And a taker!

Your my beautiful heartbreaker.....

I won't take this.....anymore.

## In-Tense - Kramit

I'm falling  
I'm falling in-tense with you,  
Don't you know, how I'm feeling baby?  
Are you falling in-tense with me,  
I don't know, gotta let it go

Where for art thou my Romeo? (sweet Romeo)  
And hold me close oh Samson be mine  
Yeah, yeah I'm falling  
Yeah, yeah I'm falling

I'm falling in-tense with you,  
Don't you know how I'm feeling baby?  
Are you falling in-tense with me,  
I don't know, gotta let it go

And then he kissed his princess, and I awoke  
We lived in our castle so happily ever after

Yeah, yeah, I'm falling  
Yeah, yeah, I'm falling for you,  
Yeah, I'm falling

I'm falling in-tense with you,  
Don't you know, how I'm feeling baby?  
Are you falling in-tense with me,  
I don't know, gotta let it go

Just Let It Go

And then he kissed his princess, and I awoke  
We lived in our castle so... happily ever after

## Hush - Kramit

I couldn't find my peace of mind  
It's been long, long, long way home.  
Couldn't see who I need to be  
Couldn't carry this weight on my own

I kept saying, hush, hush, hush  
I kept saying, hush, hush, hush  
Hush, don't fear cause I'm always here  
And together we'll go on, so Hush

Didn't know what I tried to hide  
Confused, I was lost and alone.  
Took some time my soul to find  
Now finally my life is my own

I kept saying, hush, hush, hush  
I kept crying, hush, hush, hush  
Hush, don't fear cause I'm always here  
And together we'll go on, so Hush

(Instrumental verse)

I kept saying, hush, hush, hush  
Remember crying, hush, hush, hush  
Hush, don't fear cause I'm always here  
And together we'll go on, so Hush  
Now together we'll go on, just keeping myself strong  
For now I'll go on so just, Hush

I couldn't find my peace of mind  
It's been a long, long way, long, long way, long way  
It's been a long, long way home  
Such a long, long way...

## Misunderstood - Kramit

Why can't you see through me, who I am?  
Can you not trust me? Understand, who I am, who I am...

Too much too late, What if I break in the wake of you?  
I can't sit here. What if I fear of you is true?  
What if I break in the wake of you?

Why can't you just love me, who I am?  
I love you baby, understand who I am, who I am

Too much too late, What if I break in the wake of you?  
I can't sit here. What if I fear of you is true?  
What if I break in the wake of you?

I will follow, Can you see me?  
But I can't find you, can you even hear me?  
Come and take this pain

Come and take this pain away

Misunderstood

I will follow, Can you see me?  
But I can't find you, can you even hear me?  
Come and take this pain away

Come and take this pain away

# Shake your thing - Kramit

Bring it on down, bring it on down now

Now shake your thing, we're here, we're gonna rock the house

We wanna hear you scream and shout,

Now shake your thing, shake your thing

We're gonna fight for the right to hear you, hear you sing

Don't mess with the best coz the best don't mess

Come on and shake your thing!

Now shake your thing, shake your thing

Feel the fever all around,

Everybody's getting down,

Come on people gather round,

And let go...

Bring it on down, bring it on down now...

Now shake your thing, we're here, we're gonna rock the house

We wanna hear you scream and shout,

Now shake your thing, shake your thing

We're gonna fight for the right to hear you, hear you sing

Don't mess with the best coz the best don't mess

Come on and shake your thing!
